TECHNICAL SKILLS

- Data Structures
- Java, C++
- React, Node.js, Express
- MongoDB
- OS, DBMS

SOFT SKILLS

- Adaptability
- Team Spirit
- Time Management
- Communication

COURSEWORK

UNDERGRADUATE
Data Structures
Programming Languages: Java, C++
FullStack Web Development
Database Management System
Operating Systems
Computer Networks

PROJECTS

PORTFOLIO WEBSITE
Crafted a portfolio website, tailored to showcase professional achievements and expertise. The platform features an intuitive interface, allowing visitors to explore projects, skills, and experiences seamlessly. The result is a polished and effective digital presence that highlights accomplishments and capabilities effectively

Technologies : Html, Css, BootStrap

REAL ESTATE
Designed and developed a sophisticated real estate website to cater to the dynamic needs of property owners and seekers. This comprehensive platform integrates cutting-edge technologies and features, ensuring an optimal user experience for both listing management and property exploration. It also offers advanced search functionality to users.

Technologies : React, Redux, Express, MongoDB, Firebase

ADVENTUREAXIS - TOUR AND TRAVEL WEBSITE
Created an interactive online platform for tours and travel, enabling users to effortlessly plan their vacations. The website facilitates users in finding the most suitable vacation package based on their preferences, allowing easy filtering by distance, destination, and group size. Integration of JWT for authentication and authorization, coupled with a weather API for real-time weather updates, ensures a seamless and enjoyable booking process for users."

Technologies : React, Nodejs, Express, MongoDB

CERTIFICATIONS

FULL STACK SOFTWARE DEVELOPER ASSESSMENT
an online non-credit course authorized by IBM and offered through Coursera.

OBJECT ORIENTED PROGRAMMING JAVA
an online course authorized by Coding Ninjas.

ACHIEVEMENTS

- Achieved 3rd Position in National Aviation Tech Fest organized in association with IIT-Kharagpur
